TEDTalks: Rebuilding America one slide show at a time  
Bill Strickland

Available on iTunes as video podcast  
Also on TED (TED.com)

As you watch the video you'll hear Bill Strickland describe some events that shaped his early life during high school, and then in college and beyond.

As you watch, try to listen for:

- What resources might he have had? Resources might include tangibles (money, sponsors, etc.) or intangibles (beliefs, emotions, vision)
- Hearing what he did, how do you suppose he might have leveraged the resources to which he had access?
- How do you think he showed (or shows) up (for example, with compassion, with anger, with frustration)?

Make notes on the following pages.
